IMS™ for the Podiatrist

- Simplify patient visits with podiatry-specific templates for faster, more comprehensive documentation, storage, and retrieval of detailed patient data.

- Enhance workflow with a paperless office. Gain bette r communications, greater efficiency, and deliver bette r patient care.

- Improve overall revenue with accelerated reimbursement, automatic coding recommendat ions, decreased denials, and increased patient flow.

- Built-in reporting tools scrutinize your practice's patterns for pay-for-performance, meaningful use requirements, quality measurements, and business analysis.

- Access patient information at th e point of care, no more chart-pulls, and no more misplaced records.

- Eliminate redundant paperwork, enable p atients to complete forms with integrated patient portal, and in-office kiosk.

- Automate prescription writing, drug inter action, and formulary checking with automatic alerts, and a fully-integrated drug database.

- Easily deliver patient education materials for after proce-dure care, specific tests, procedures, and disease management.

Easily Become a Meaningful User

IMS™ features a unique Meaningful Use Dashboard that quickly identifies meaningful use deficiencies. Review clinical data with graphical charts identifying patients not meeting clinical measures quickly and easily. Tasks, reminders, alerts and letters can be generated to improve meaningful use status.

Up to $44,000

The Medicare EHR Incentive Pro-gram provides payments to eligible professionals as they adopt, implement, upgrade and demon-strate meaningful use of certified EHR.

Purchase with Confidence

IMS™ is guaranteed to meet all of the ARRA meaningful use criteria and requirements or your money back. IMS™ has received the most current CCHIT certification, and, as of September 30, 2010, the most recent version was recognized by CCHIT as a Stage 1 Meaningful Use certified Complete EHR with ONC-ATCB 2011/2012 Certifica-tion, meeting all criteria published by the U.S. Department of Health and Human Services (HHS) in the Final Rule.

The IMS Difference

IMS Ambulatory Electronic Health Record (EHR) and Practice Management software are fully integrated sharing a single database, to meet your unique clinical and administrative needs.
Our solutions can be implemented as an integrated solution or separately as stand-alone applications and can be deployed as a client-server or web-hosted solution, your choice.

It takes more than just software to deliver success in today's complex practice. That's why IMS ensures your success with Authorized Partner, Ù˘}^¦*˘ P^⧉⧉^, who is experienced in health IT, network, security, and certified in the IMS solutions.

100% of full time Podiatrists, that have been *Synergy Healthcare* clients for at least 4 months, PASSED Meaningful Use attestation … AND received their stimulus payment!

Why Synergy Healthcare
for your EHR solutions?

Our firm is vastly different in that we are a total turn-key healthcare solutions partner. Here are a few reasons why we are different:

- **Integrity:** our philosophy is simple in that all we do adheres to complete integrity, to our clients and ourselves. We earn the trust and respect of our healthcare clients and keep it.
- Experience: we offer a highly trained and knowledgeable team with over 20-years of IT; security; practice management, certified billing/coding; and business management experience.
- **Hardware/Network:** we offer full hardware, networking and security services. A poor network structure will render any EHR problematic. If an EHR system is difficult and problematic – your staff won't use it.
- **Training:** we offer training options on every aspect of the EHR system so that the client can utilize their new system to maximum potential.
- **Effort Coordination:** healthcare providers and their staff are already stretched to the max with daily responsibilities with no time to coordinate multiple vendors to get an EHR operational. We solve this problem being a total solutions healthcare vendor (1 vendor=1 call).

We offer a select portfolio of services and products that are highly integrated resources to aid healthcare providers to strengthen their resources and empower them with tools to improve efficiency, productivity, profitability, while improving the quality of healthcare delivery.

- **Remote Data Backup:** meeting HIPAA compliancy.
- **Monitoring:** most healthcare practices do not have full time on-site IT staff our solutions reduce costs yet keep practices productive.
- **Revenue Cycle Management:** integrated products and services to keep your cash flow flourishing.
- **Billing Services:** Medical billing services tailored to your unique needs.

Our select portfolio of products and services benefits our clients by: effectively managing healthcare technology; meeting or exceeding goals; coordination of technology efforts to reduce staff frustration with change; improve healthcare efficiency and productivity; reduce errors and thus mitigating risk exposure of client.

"I have worked with many practice management systems, and IMS, by far, is the best system I've used. I'm impressed with the ease of working the AR as well as doing claim corrections. I like the fact that I can do almost every thing I need to do in a patient's account through the "ledger."
